

A Christmas Donkey's Diary: Cut-out Donkey Activity

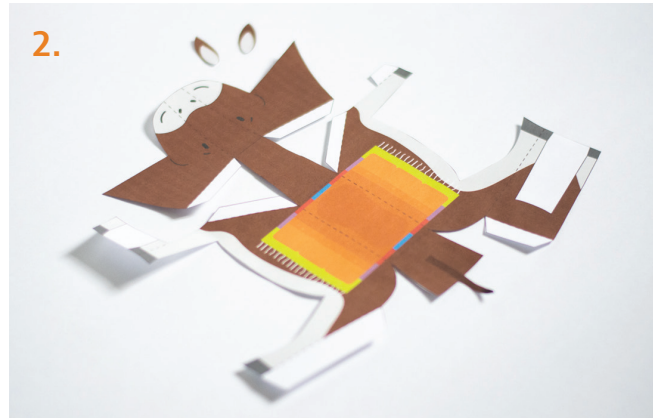

You will need scissors and glue for this activity.

Making the donkey:

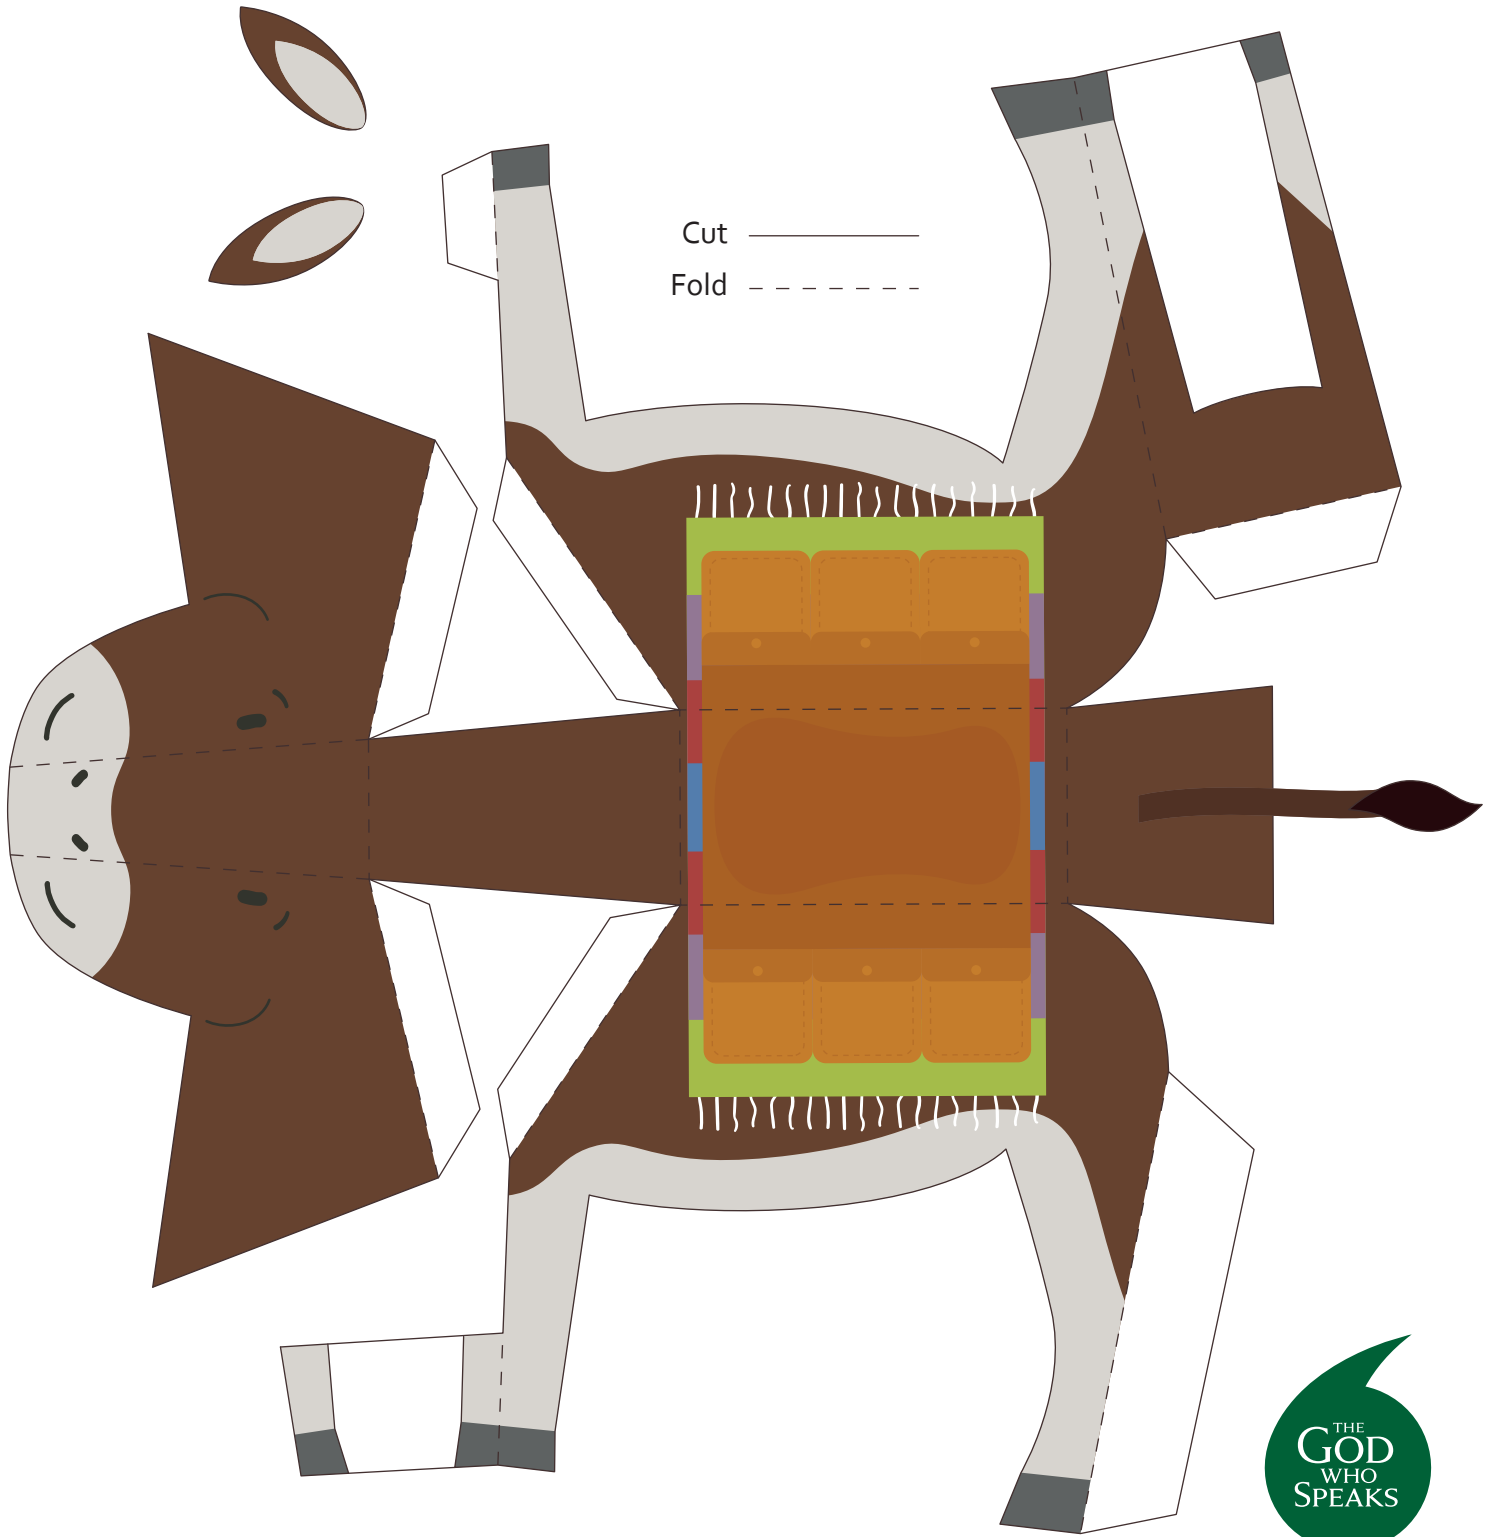

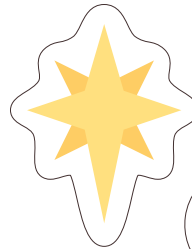

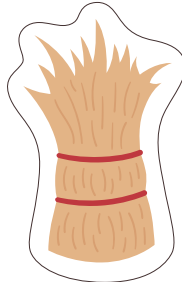

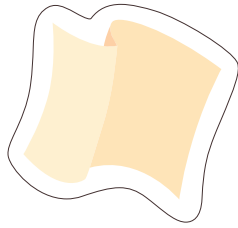

1. Print the donkey either in colour or in black and white if you would like to colour it in yourself.
2. Cut out the donkey making sure not to cut the dotted lines. Don't forget the ears!
3. Fold along the dotted lines – you'll start to see the shape of the donkey come together.
4. Glue together using the white tabs.

Attaching the clues:

5. Cut out the 6 clues and have them ready to glue to the donkey's saddle bags. (Don't forget to colour them in if you have printed the sheet in black and white).
6. Listen carefully to the donkey's Christmas diary. Can you spot the clues he picks up along the way? Stick them to his saddle bags to help him to remember them.
7. When you have attached all 6 clues your donkey will be ready to take home.
8. Place your donkey in the crib at home.
